

Three Great Dilutable Insecticides to Tackle Different Pest Situations

Alpine® WSG

Water Soluble Granule Insecticide

- Kills social pests at the source through transfer
- Undetectable, non-repellent formulation pairs well with baits
- Great for indoor maintenance

Ridesco® WG

Insecticide

- Rapidly reduces pest populations
- Powered by two trusted active ingredients, dinotefuran (Alpine WSG) and alpha-cypermethrin (Fendona CS)
- Great for 1st time services, cleanouts, callbacks and events

Fendona® CS

Controlled Release Insecticide

- Microencapsulated concentrate formulation
- Strong residual and rainfastness
- Great for outdoor maintenance and mosquito treatments

Choose the Best Tool for Each Job

Quarterly indoor maintenance

Protocols involving baits

Ant and German cockroach infestations

Flexible label that allows you to go almost anywhere that pests do

Interior Maintenance

Active Infestations

Residential and commercial cleanouts

First-time customer / initial service

Spiders, occasional invaders and large cockroaches

Callback from frustrated customer demanding fast resolution

Active Infestations

Quarterly outdoor maintenance
